

Arex emission tester

Always an efficient investment!

The new emissions testers from Arex are manufactured to the same demanding standards as our brake analysers.

Arex uses a number of factors before any products are manufactured:

- ✓ Functionality
- ✓ Accuracy
- ✓ Diagnostic capability
- ✓ Speed
- ✓ Value for money
- ✓ Modular
- ✓ Low maintenance

We are absolutely convinced that these new emission testers meet and exceed our strict requirements.

And with the emphasis on professionalism, this equipment looks good too!

The emission testers of Arex, essential for every test lane

Your partner in trusted test equipment

Combi smoke 4-gas

4-gas and smoke

Integration in test lane concept possible with PC controlled emission tester

Portable smoke meter

The Arex 50 smoke meter works best in combination with the magnetic sensor for optimum rpm measuring and with the compact zero emission unit smoke measurement will be performed faster without problems.

Exhaust gas tester:

- ✓ Highest OIML approval (0)
- ✓ Fast warm-up
- ✓ Clear LED reading
- ✓ Automatic water separator
- ✓ Fast printer

Smoke meter:

- ✓ Latest design
- ✓ Low-maintenance lenses
- ✓ Quick, simple to use program
- ✓ Rpm measuring by battery, inductive or piëzo clamp
- ✓ Compact zero emission unit

Very clearly readable display

Compact closed zero emission system. This system reduces the amount of testing time !!!
